

Dana C. Price, Ph.D.

Associate Research Professor
Department of Entomology
Headlee Labs room 218
d.price@rutgers.edu

Rutgers University
180 Jones Ave
New Brunswick, NJ 08901
848-932-6835 (W)

Professional Preparation

Institution	Major/Area	Degree and Year
Rutgers University	Biology	B.S., 2001
Rutgers University	Entomology	Ph.D., 2015

Professional Appointments:

- I. Associate Research Professor. 2015–present. Department of Plant Biology (2015-2019), Department of Entomology (2019-present) Rutgers University, New Brunswick, NJ 08901.
- II. Laboratory Researcher IV. 2010-2015. Department of Ecology, Evolution and Natural Resources, Rutgers University, New Brunswick NJ 08901.
- III. Graduate Assistant. 2008-2010. Department of Entomology / Center for Vector Biology, Rutgers University, New Brunswick NJ 08901
- IV. UNIX Systems Administrator. 2001-2008. Rutgers University, New Brunswick NJ 08901

Skills and interests:

- Biology, ecology and genomic analyses of arthropod disease vectors; novel arboviral surveillance techniques
- Insect evolution, systematics and taxonomy as studied through genome analysis
- Metagenomic analyses and functional genomic classification of insect-microbiome interactions
- Next-generation sequencing (Illumina, PacBio) library preparation, quantitation and quality control using manufacturer-approved and custom wetlab protocols.
- Insect, algal and protist laboratory culture.
- Bioinformatic analysis of next-generation sequence data using high-performance computing infrastructure. Skills include but are not limited to:
 - Genome/transcriptome library assembly and functional annotation
 - Shotgun metagenome sequencing, binning, functional and taxonomic classification
 - Differential expression e.g., RNAseq analysis
 - Adaptive evolutionary (natural selection) analyses
 - Single-cell genome analysis techniques (k-mer spectral analyses, read correction, assembly)
 - Phylogenetic/phylogenomic evolutionary analyses
 - Server hardware and software maintenance; Management of multiple clustered and stand-alone linux operating system based HPC servers for bioinformatic analysis.
- Scripting languages: Perl, PHP, R, Javascript, MySQL database.
- Excellent written, verbal and team-oriented communication skills.
- Personnel management; serves as hiring manager, first-level supervisor and mentor of both full-time (Type 1) and part-time University employees

Courses taught:

- Mosquito Biology (16:370:504) Spring 2020 (ID component); co-taught with D. Fonseca.
- Insect classification (11:370:409) / Insect taxonomy (16:370:524); taught every Fall.
- Functional Genomics for Research (11:776:485); taught every other Fall.
- Fundamentals of Genomics (11:216:423:03) Spring 2014 – 2019; Co-taught with D. Bhattacharya.
- Using Genomics to Study Microbial Diversity (11:090:101 Byrne Seminar series) Fall 2018; Co-taught with D. Bhattacharya.

Guest lectures:

- Comparative Virology (11:126:407) “Vector-borne viruses” Fall 2021
- Advanced Technologies in Biosciences (11:126:444) “Genome sequencing and gene prediction” and “Differential Expression and Metagenomics” Spring 2017 and 2018
- Concepts in Biotechnology and Genomics (16:137:615) “Genome sequencing and gene prediction” Spring 2017
- Algal Genomics for Environmental and Algal Biofuel Research (16:215:599) “Genome sequencing and gene prediction”, “Single cell genomics” Spring 2011 and 2012

Mentorship:

- Advisorships: Zoe Narvaez (Ph.D. advisor), Margherita (Daisy) Porfirio (M.S. advisor), Incoming USDA-NIFA funded graduate postdoctoral research associate (Fall '21).
- Undergraduate advising:
 1. Douglas Project for Rutgers Women in Math, Science & Engineering (SUPER) mentor, Spring 2018
 2. Bloustein School of Planning and Public Policy internship supervisor, Spring 2018
 3. Aresty Summer Science faculty mentor: Spring 2019, 2020, 2021
 4. Undergraduate research internship advisor: Spring 2020, Fall 2020, Spring 2021
 5. George H. Cook undergraduate scholars program: Fall 2021

Funded Grants and Awards:

1. USDA-NIFA 2021-67015-34461, 2021-2024. Functional genomics to mitigate the threat of the invasive Asian longhorned tick, *Haemaphysalis longicornis*. (P.I.) \$500,000.
2. NIH-NIAID 1R21AI159459-01, 2021 – 2023. Non-invasive approaches to mosquito-borne pathogen surveillance using excreta. (P.I.) \$353,022.
3. USDA-NIFA Hatch/Multistate NE1943, 2020. Biology, Ecology & Management of Emerging Disease Vectors. (consortium) \$5,000 per annum.
4. New Jersey Department of Environmental Protection, State Mosquito Control Commission, 2019-2020. Emerging West Nile Virus strains in New Jersey. (P.I.) \$19,887.
5. Rutgers Office of Research and Economic Development Faculty Research Grant Program, 2019-2020. Genotyping and spatial distribution of New Jersey West Nile virus in response to the 2018 transmission cycle. (P.I.) \$2,900.
6. National Aeronautics and Space Administration 18-EXO-0014, 2019 – 2021. Elucidating the transition to eukaryotic phototrophy. Co-P.I. (D. Bhattacharya, P.I.) \$996,423.

7. Rutgers Office of Research and Economic Development Busch Biomedical Grant Program, 2017 – 2019. A Functional Genomic Classification of the Mosquito Microbiome. P.I. \$25,000.
8. The American Mosquito Control Association, 2017 – 2019. Assessing the arboviral landscape via metagenomic analyses of sentinel FTA cards. P.I. \$42,500.

Gifts:

1. Hunterdon Healthcare Foundation, 2020. In support of tick-borne disease surveillance in Hunterdon County, NJ. \$17,500.

Trainee Record:

2021 – Arsala Khan (undergraduate); Aresty Research Assistant program – currently a sophomore
 2021 – Margherita Porfirio (graduate master's student); currently pursuing her master's degree.
 2021 – Miranda Barnes (undergraduate); Rutgers Aresty Summer scholars program – currently a junior, presenting work and national ESA meeting this year.

2020 – Zoe Narvaez (graduate Ph.d. student); currently pursuing her Ph.D.

2020 – Shani Hood (undergraduate); Microbiology intern – graduated.

2019 – Evanna Jaramillo (undergraduate); George H. Cook Scholars Program – currently a graduating senior.

2018 – Julia Brennan (undergraduate); Rutgers Aresty Summer scholars program – currently a graduating senior.

2017 – Camille Cancino (undergraduate); Rutgers Douglass Project for Women in STEM (Project SUPER) – Advisor – Currently Associate Scientist at Pfizer.

2013 – Nicole Wagner (staff); Supervisor – sequencing lab technologies – Currently Principal Lab Technician at Rutgers University.

2012 – Ehud Zelzion (staff); Supervisor – bioinformatics – Currently Sr. Scientist at Rutgers Office for Advanced Research and Computing (OARC).
